respectively**

EL SALVADOR MARKET OPPORTUNITIES

FOCUS: Expanding business opportunities for companies and manufacturers from Southwest Florida. A member of the U.S.-Central American-Dominican Republic Free Trade Agreement since 2014, El Salvador is a steady and growing market for U.S. goods and services, which currently represent 47% of El Salvadoran total exports. South Florida in particular demonstrates a strong and expanding bilateral commercial link, showing a 9.64% increase in trade between 2015-2016, with substantial imports in the agricultural, textile and food sectors and exports in electronics, transport, and chemical sectors. This event will be held during the Port Authority Meeting. (MCPA)

EVENT INFORMATION
